

**REMARKS**

In accordance with the foregoing, claims 37-52 have been added. Claims 1, 3-17, 20-31 and 33-52 are pending and under consideration.

The rejections under Ellis, Young and Jennings Jr. were discussed in the previous response, and therefore, the Examiner is referred to the previous response. New independent claim 37 is added herein and recites, "receiving a user command to display said time-wise progression information of said predetermined program; and displaying a graphical representation of elapsed time and time information of the predetermined program in accordance with said electronic program guide information and in response to said user command, wherein said time information comprises a beginning time information and termination time information of said predetermined program." It is respectfully submitted that the cited references do not teach or suggest those features.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
